**In the heart
of Gemmayzeh**

When you first encounter this woman, you are instantly charmed by the warmth of her welcome from the moment she opens her portals to greet you with an extended hand drawing you into her workshop-cum-home tucked away in the middle of Gemmayzeh, to the beaming smile exuberantly embellishing every word that she enthusiastically expresses – you definitely feel that this lady is in love with, not only her creations, but life in all its “chaotic and glorious beauty!”

After taking a year off to rejuvenate from the hectic corporate arena and to gather her unconscious energies to formulate her life’s dream and ambition to create with her hands, Nada G (her trademark signature) completed her premiere self-made handcrafted art work in August 2003. She really wanted to produce something from the initial creative idea through to the final fruition, keeping her head and hands involved in the entire process. Then, “Eureka!” stuck and hit upon her particularly unique jewelry designs, which gave her the vehicle to realize this need.

Remarkably and testament to her thriving success, barely a year later and with a growing entourage consisting of fellow designers and colleagues to help administer the budding enterprise, this effervescent diligent artist is all set to branch out of her office/workshop-cum-home to her first, of what will prove to be many, exclusive boutique entitled Nada G. and true to form and vision, she is staying firmly set right in the heart of Gemmayzeh.
